 - d. Verify the mouth is touching the fence
 - e. The entire fish must be visible in the photo, except where covered by the hand
- C. Camera is to be positioned directly over the fish's body and centered. This assists in accurate judging. Low angle photos that make judging length difficult, or make it difficult to confirm that the mouth is in contact with the fence, may be penalized or denied at the judge's discretion
- D. The identifier, if used, may be located above, below, or beside the fish.
- E. Competitor's watercraft must be visible in the background of the photo. **Failure to do so will result in a denied submission**

F. Hand Position

- a. No portion of the hand may enter the gill plate. Violation will result in a denied submission

Scoring

- A.** Fish length is determined by the line on the measuring board that the caudal (tail) fin touches or crosses. In the event that the tail crosses one $\frac{1}{4}$ " mark but does not touch the next, that fish will be rounded down to the mark that it touched or crossed.
- a. Example: Your submission's tail crosses the 15.50" mark, but falls short of 15.75" mark. That fish will be scored as 15.50"
- B.** Any portion of the tail that extends off the board is not considered for scoring. The longest mark the tail obviously touches or breaks will be awarded.
- a. Be careful with tail placement. It becomes difficult to tell whether a tail makes the next mark if it is lying on a portion of the board that is unlined. If that happens, it is judge's discretion for scoring.

- C. Tail must be in contact with the measuring board. **Photo will be denied if the tail is raised.**
- D. Tournaments will be a best 5 fish format unless otherwise noted. Auto cull is turned on for all tournaments in TourneyX
- E. AOY points will be awarded in a 100 point format per event. 100 to 1st, 99 to 2nd, 98 to 3rd, ect minimum of 20 points. In the event an angler has 0", either 50 points or last place points will be awarded (whichever is lower)
 - a. AOY per series will consist of an angler's best 4 out of 5 events unless otherwise noted.
- F. In the event of a tie, big fish will break the tie. If competitors' biggest fish are equal, it will continue to roll down until the tie is broken.
